General industrial unit 20m Span x 66m Long  
x 7.3 to Eaves

A range of industrial structures  
each 18m Span x 60m Long x 6m to Eaves

Industrial Structures can be supplied to the trade

### WAREHOUSING

This picture indicates a large storage building with concrete walling to 3000 high, all fully insulated with composite roof and wall panels. The roof pitch is 10 deg.

### INDUSTRIAL BUILDINGS

Here we have a range of industrial structures all fully insulated. Each structure is 18m span x 36m long x 5m to eaves. All fully designed and manufactured by us. Note the matching cladding and the 9000 wide roller shutter doors for in and out loads.

### WORKSHOP

All our structures are fabricated in our fully equipped workshop covering an area 18m wide x 40m long x 12 m to the eaves. All our steel plates are produced in house which enables us to offer the full package when fabricating. We have six fabrication stations all capable of manufacturing any type of structural steelwork. We have overhead gantry cranes with a 10 tonne capacity. All painting is carried out in house.

RETAIL UNIT

Industrial Grain Store - under construction

Riding School being 20m wide x 48m long x 5m to eaves.

This type of structure incorporates offices and a mezzanine floor with workshop facilities at the rear through the roller shutter door.

### BUILDERS BEAMS

We can offer small fabrications and beams to our local builders - all made to order.

### CROP STORE

Double span insulated surcharged crop store. 20,000 tonne capacity.

### SPECIALISED STRUCTURES

Riding School. We can supply all various sizes and specifications of equestrian buildings.
